

Photo Orienteering Scuol

On a two-hour tour around Scuol, you can experience some typical Romansh characteristics of the Lower Engadine and have some fun at the same time. Ideally, start the orienteering at the Tourist Information Scuol and orient yourself around the village of Scuol using the map overleaf. The Photo Orienteering is signposted year-round and is ideal for a bit of competition within the family or a school camp.

Instructions:

- Your task is to locate the subject of each photo (see overleaf) along the route.
- Once you have located it, look around the nearby area for the question. You will find it on an A5 plate within a 10-metre radius. Then, answer the question.
- To discover the solution word, fill in the answer sheet below for each photo. After that, write the appropriate letters in the corresponding box (e.g., 9/1 means: solution photo 9, 1st letter).
- Please hand in the reply slip at the Scuol Tourist Information Office. If you provide the correct answer and enter the prize draw, you could win a prize worth up to CHF 150. The prize draw takes place twice a year. Good luck!
